HELP US BAN BIOMASS BURNING POWER PLANTS IN THE TAHOE BASIN!

TRPA AND PLACER COUNTY ARE PLANNING
TO BUILD A POLLUTING BIOMASS (*FOREST WASTE*)
BURNING POWER PLANT JUST OFF HIGHWAY 267,
LESS THAN A MILE FROM THE LAKE, AND
WITHIN 1000 FEET OF AN ELEMENTARY SCHOOL.

The power plant proposed for *Kings Beach* will consume 25 to 75 tons of processed biomass fuel per day, trucked in from *Cabin Creek*, just south of Truckee and outside of the Basin. All forest waste is first dried and processed into biomass fuel at *Cabin Creek*. Historically, it has been then trucked from *Cabin Creek* to *Loyalton*, north of Truckee for burning. This plant simply changes the burning location from OUTSIDE to INSIDE of the LakeTahoe Basin, adding massively to the pollution of the air and water!

IT WILL NOT REDUCE OPEN BURNING. IT WILL NOT INCREASE THE REMOVAL OF FOREST FUELS THEREBY REDUCING WILDFIRES. THEY ARE SEPARATE ISSUES.

**THE LOGICAL PLACE FOR SUCH A PLANT
IS CABIN CREEK – WHICH WE SUPPORT!**

**TRPA will not Stop This! - TRPA & Placer are Sponsoring It!
A North Shore Plant Will Pollute the Lake Tahoe Basin!**

See www.friendsoflaketahoe.org to learn how you can help. . .

THIS IS AN URGENT MATTER! IT REQUIRES ACTION NOW!
